Comments: Roof is original pressed metal, no leaks, few antiques in the home. Looking for bids on this 1897 cottage. It is a preservationist's dream. It has been in the same family for 70 years and kept in its near original form as a CAMP MEETING COTTAGE. Thus it needs a great deal of work and repair to bring it up to contemporary preservation, living standards, and value. A unique opportunity to own at the campgrounds in a cottage fashioned the way you want it. Owner who is an historian and active in the field of historic preservation will provide full disclosure, and a personal tour. It is sold as is, completely furnished (including a few antiques.)
